

Name _____ Class _____ Date _____

IMAGINING THE FUTURE !

1. What group are you in? _____

2. What is going to change in your system due to climate change?

3. If this change is negative, is there anything you can do to adapt?

4. Please draw your system in its present condition in the first box.
In the second box, please draw what you think your system will look like by 2050,
including any adaptation you've imagined.
